MEASURING INSTRUCTIONS

**DO NOT Measure yourself • Height measurements to be taken without shoes • Do not allow for extra clothing, we add extra
 Wear light clothing eg. jeans and a t-shirt or thin top • Hold the tape measure snugly – not firm or loose**

- 1) **Chest circumference** Wrap the tape measure around chest under arms at widest point keeping arms at sides.
- 2) **Waist circumference** Wrap the tape measure around waist at belly button height.
- 3) **Hip circumference** Wrap the tape measure around the hips at the widest point.
- 4) **Underarm to floor** Hold end of tape at the height where the waders are to reach and measure to floor. Keep legs and body straight with arms at sides.
- 5) **Waist to floor (waist waders only)** Hold end of tape at waist height and measure to floor. Keep legs and body straight. Please refer to Dryline if required height of garment exceeds waist height.
- 6) **Inside leg length** Wearer to hold end tape between legs at the point where wader crotch is to sit (we call this the crotch-point). Measurer to record length at floor level. Keep legs and body straight.
- 7) **Thigh circumference (at 15cm)** Wrap the tape measure around the thigh at a point 15cm below the same crotch-point as chosen under Instruction 6 above.
- 8) **Thigh circumference (maximum)** Wrap the tape measure around the thigh at the widest point of upper thigh. Also write distance from crotch-point to widest point
- 9) **Gumboots** You may choose between two brands of gumboots with optional safety features. (No half sizes) If in doubt re: boot size/brand, please refer to Dryline.
